NetDania Mobile

The World's Highest Rated Trading App

As a white-labeled application, NetDania Mobile allows you to add your institution's instruments, quotes and news sources, and you can brand it according to your visual identity. Trading between the app and your trading venue is fully supported.

NetDania Mobile comes pre-integrated with NetDania NetStation, which is a trading, information, and analysis platform for browsers and desktops.

Globally, NetDania Mobile is the highest user rated trading app, making it one of the best lead generators in existence. The cloud based algorithmic services and our trading implementation sets new standards for mobile trading, and the app inspires an increasing use of mobile trading. A clean Scandinavian design with an easy to use interface, rocket fast response times, and integrated localization makes it second to none.

NetDania Mobile is available for iOS (Apple iPhone & iPads), and Android (both phones & tablets).

Our FinTech Solutions

NetDania offers a wide range of solutions, including financial workstations and information terminals, trading platforms, charts and applications for desktop, mobile and website use.

NetDania solutions are feature-rich and cost-efficient through their flexibility and modularity. They come with extensive branding and hosting options.

The NetDania applications include the world's highest user rated mobile app within finance, and the world's fastest HTML5 chart.

About NetDania

Founded in 1998, NetDania pioneered streaming price technology, and have since delivered solutions to global Tier-1 banks, brokers, currency managers, and analysts. With a strong position within corporate FX and trading, our technologies are increasingly used by banks, brokerages and analysts as better alternatives to expensive legacy systems for trading, news and analysis.

At NetDania, we take a Scandinavian approach to our work with a keen eye for design and with punctuality and mutual trust as our key values.
